

TB-37-13-2576

Water Pump Installation Instructions for Precedent Units with 488 engine

- This New Water Pump REQUIRES replacement of the adapter plate. A newly Modified Adapter plate (TB-37-13-2026) is INCLUDED with the New Water Pump (TB-37-13-2576).

1. Remove the 3 bolts holding existing adapter plate.
2. Remove any existing RTV or gasket adhesive from cylinder head.
3. Install New adapter Gasket with high temp RTV and install the New adapter plate and torque bolts to 11 Ft lbs (15 Nm)

- The Adapter (TB-37-13-2026) is located between the cylinder head and water pump. (see photo below)
